PROFESSIONAL SUMMARY

Versatile Full-Stack Developer with over 5 years of experience in building high-performance web applications and AI-driven solutions. Expert in Python (Flask), WordPress, and CMS customization. Recently developed "TasteTalk", an AI-powered voice bot using NLP and real-time backend processing. Proven track record of delivering 50+ professional websites globally, managing remote projects, and optimizing user engagement through modern technical stacks.

TECHNICAL SKILLS

Languages & Frameworks: Python (Flask), JavaScript, HTML5, CSS3, SQL, MongoDB, Dart (Flutter)
CMS & E-commerce: WordPress (Expert), Shopify, Wix Development
AI/ML & Backend: NLP, Speech Recognition (STT/TTS), RESTful APIs, Firebase Integration
Tools & Cloud: Git/GitHub, Google Cloud Platform (GCP), Project Management, QA Testing
Core Strengths: Agile Methodologies, SEO, Client Communication, Remote Team Collaboration

KEY TECHNICAL PROJECTS

- TasteTalk: Smart Voice Bot for Food Order Handling** | *Flask, Python, Flutter, Firebase* 2026
- Developed an end-to-end AI agent using Flask for the backend to process natural Urdu voice commands for food ordering.
 - Integrated Google Speech Recognition and Flutter TTS to achieve real-time, bidirectional voice interaction with 90% accuracy.
 - Implemented complex cart logic and dynamic menu fetching, reducing order handling response time to 1.5–2 seconds.
 - Leveraged Firebase to store real-time order data and interactions instantly, providing a seamless administrative dashboard.

WORK EXPERIENCE

- WordPress Developer** April 2023 – Feb 2025
ZA Technologies Canada (Remote)
- Designed and maintained responsive WordPress websites tailored to specific client branding and user experience goals.
 - Customized themes, optimized site performance, and ensured cross-platform mobile responsiveness.
